

ALUMAWOOD™ performs like real wood can't

Unlike real wood, ALUMAWOOD™ won't burn, get termites, crack, peel, warp or rot. ALUMAWOOD™ stays looking new for years and years, so you'll never have to worry about spending money and hours of back-breaking work to scrape, paint and repair your shade structure. And using ALUMAWOOD™ is friendly to the environment because it helps preserve our nation's forests.

Best of all, ALUMAWOOD™ costs less than wood when you factor in maintenance costs.

Quality and beauty in every detail

Each component of your shade structure is engineered to assemble with flawless fit and finish. Every design detail has been carefully considered to enhance aesthetic appeal and the natural wood appearance. From any angle, your shade structure reflects our commitment to the highest-quality craftsmanship.

Warranty coverage that's second to none

Our ALUMAWOOD™ products are so tough and durable that we back your shade structure with one of the strongest paint warranties in the business. But any warranty is only as good as the company behind it. That's why, when you choose Amerimax, you receive a limited lifetime warranty backed by a company that will be here tomorrow.

When it comes to quality, beauty and durability, no one covers you like Amerimax.

The Amerimax difference

Your shade structure is an investment in the beauty and value of your home. That's why you should trust the company that's been a leader in high-quality home-enhancing building products for more than 50 years. Your Amerimax purchase is covered by our Lifetime Limited Warranty — one of the strongest warranties in the industry. We take every step necessary to ensure the utmost in quality control, from using our own in-house staff of design experts to painting the aluminum ourselves. Uncompromising standards, state-of-the-art engineering and superior service mean you'll enjoy a virtual lifetime of carefree ownership.

More value, more space, more beauty with Amerimax

An Amerimax shade structure increases the value of your property while affordably adding outdoor living space for you, your family and friends. A shade structure can be attached to your home or freestanding in your yard creating a private retreat, entertainment area or landscaping focal point. If you want added shade but still prefer partial sun to shine through, a lattice style is the ideal solution. Whichever style you choose your Amerimax shade structure will be custom-designed and custom fit to complement your home's architecture. Plus, Alumawood™ won't rust, warp, crack or rot. In fact, it's virtually maintenance free and built to provide years of long-lasting beauty. Altogether, an Amerimax shade structure enhances your home's exterior, expands your living space and adds value to your home.

Laguna Lattice shade structures

Lattice from Amerimax is not only practical, but beautiful. A lattice patio cover provides shade for your outdoor living space without screening out refreshing breezes. Plus, the look of lattice adds sophisticated charm to your home's exterior.

Newport Solid roof shade structures

A solid patio roof is your best choice for providing you and your outdoor furniture with maximum protection against the elements. You'll be able to use and enjoy your outdoor living space even when the weather isn't ideal.

Whether it's solid roof or open lattice construction, Amerimax shade structures feature:

- Strong, long-lasting, virtually maintenance-free aluminum
- Heavy header beam construction
- Richly textured wood-grain finish
- Weather-resistant Tuffcoat paint finish that withstands the harshest conditions, including sun, rain, wind and extreme temperatures
- Baked enamel for rugged durability
- Color-matching fasteners
- Choice of popular color finishes to complement your home
